

ECE 3020 Homework 1
Due Date: Friday, January 18, 9:05 AM

1) On-line Text, Problem 2.2.10

- An example input and valid outputs are:

Input: [5, 17, 12, -6, 29, -8, 17, 13, -6, 99]

Valid output 1: 5 17 12 -6 29 -8 13 99

Valid output 2: -8 -6 5 12 13 17 29 99

- N.B. – I do not care about the efficiency of the program. Do it in the simplest possible way you can. Test your program on the above input and several others.

2) On-line Text, Problem 2.3.1d
